

NOTE SHEET

File No.1529/25/5/2019

A suo motu cognizance was taken on a news item appearing in the Statesman dt.13/7/2019 captioned "Patient refused by four state hospitals." A report was called from Principal Secretary, Health and Family Welfare Department. A report to this effect has been submitted by Director of Medical Education. According to the report furnished by the concerned hospitals it appears that on duty Medical Officers attended the patient, examined and advised him accordingly. Since the medical personnel are given emergency ticket which is handed over to the patient or relatives the authorities are unable to comment on investigation and treatment and referral to the other hospital as further documents are not available. In view of above we may not proceed with the matter any further as the report states of appropriate action by concerned hospitals.
